LATCHING LOOP IN/LOOP
OUT TERMINALS SUITABLE
FOR USE WITH SOLID OR
STRANDED CABLE

NEW AND IMPROVED
LATCHING TERMINALS
FOR FASTER INSTALLATION

FIRST FIX & TESTING

SECOND FIX

Description

The brand new E6TM PRO is a revolution in LED downlight performance and installation. Utilising the unique RapidWire connection system, the whole product can be fully wired and installed in a matter of seconds. The use of latching terminals provides the security of screw terminations for both solid and stranded core cables and can be wired even faster than standard push fits. The removable connector allows full circuit insulation resistance testing without risking any damage to the downlight, which can be simply plugged in afterwards.
